

Volunteer

& Get Class Credit

Volunteer at Upcoming Construct Tomorrow Events!

What is it?

Construct Tomorrow was founded in 2013 to provide high school students the opportunity to experience trade-work hands on and provide them with awareness of the amazing post-secondary career opportunities that come with being an apprentice.

What will you do?

You will share your experience as an apprentice, help at the hands-on demonstration stations, and answer questions that students may ask.

What do you get out of it?

Aside from free lunch and breakfast, you'll get credit for one class—this might be a class you've already missed or could be used for the future.

When is it?

Our next event is December 7th, in Brooklyn Center. You'd be expected to attend from 7am-3pm.

Future events are:
January 25, St. Cloud
February 23, Hinkley
And more...

For more information about Construct tomorrow, visit constructtomorrow.org

To sign-up to volunteer, [fill out our form](#) or reach out to Rebecca, John, or your instructor, Michael, Mitch, or Nick.

Instructor Training

Earlier in November, many of our instructors attended their first year of classes for the Instructor Certification Program (ICP). The International Masonry Institute launched this five year long program in 1985 with the goal of developing qualified instructors capable of producing quality masonry craftworkers. The continuing education ICP provides is integral for instructors to learn how to help their students succeed and to structure a training program that meets the needs of their members throughout their working lives. Graduation requires the completion of a 200-hour curriculum and the creation of an instructional portfolio (imtef.org).

Becoming an instructor with the BAC is just another of many career opportunities post-apprenticeship.

Upcoming Events & Classes

Important Events to Note:

The Annual Union Holiday Party, December 12, 7-8pm.

This counts as attendance to one Union Meeting. It's a great opportunity to socialize, eat, possibly win a prize, and earn one of your two yearly credits.

This event is **MANDATORY** for all 1st year apprentices. Yes, this includes you, 1st year Tile Setters. (This is where you are sworn into the Union).
